

Boffa Miskell founder receives award

29 March 2007

Frank Boffa was awarded the New Zealand Planning Institute's prestigious Alfred O Glasse Award in March 2007. The award recognises outstanding services to planning by non-planners.

Frank's contribution to landscape planning and development throughout New Zealand, South East Asia and the Pacific was recognised, as well as his exemplary strategic advisory work, expert witness testimony and work as a commissioner for territorial local authorities.

The NZPI® Awards Committee saluted his "invaluable contribution to actively promoting the need to understand and sustainably manage landscape change, especially in sensitive rural and coastal environments".

Frank founded, in 1972, the landscape architecture practice that became Boffa Miskell Limited.
